Aug-Sept 2025

A MESSAGE FROM THE PRESIDENT

Greetings members. One more month of a very cold winter and we move into spring. September is a busy time at the Club for a range of reasons including the AFL Grand Final. Importantly the club will hold its Annual General Meeting. That will be the occasion for the presentation of various reports summarising club activities and developments in the preceding year. There will, of course, be the presentation of our financial position. An important item on the agenda will be the election of a new management committee. The constitution provides for a management committee of 10.

In the past year the management committee has met monthly. I expect that it will continue to do so. Soon there will be a call for nominations. I ask that all members give consideration to nominating.

All current positions, including

those of the executive, will be vacated at the Annual General Meeting. The new management committee will, at its first meeting, typically following the annual general meeting, elect a new executive.

It is of the utmost importance that committee members work together as a team and in the best interests of the club. The executive, being President, Vice President, Treasurer and Secretary will, as always, have defined roles. Ordinary committee members, with the exception of the representatives of constituent sporting bodies, have no specific role to play unless power or authority is conferred by the committee through consensus or resolution.

Working as a team is of the utmost importance. Doing so will result in efficient and productive management of the club.

GOLF CLUB NEWS

OUR NEWEST EAGLE !

Big congrats to Kevin Malone for his eagle on the 5th hole at scroungers recently.

The very rare eagle, two UNDER par, is a fine accomplishment. Well done Kev!

Our recent Busy Bee was a big success, thanks to the six enthusiastic and hard working members who removed a few dead trees as well as lots of dead debris around the course. A lot was achieved and our bush areas are looking so much healthier with native seedlings really coming on.

Guilderton Community planting day

Sunday July 13th was cool but dry for the wonderful volunteers who turned up to help plant about 650 native seedlings on our northern dunes.

The plants are mainly grown from provenance seed, collected from the dunes, and grown into plants by the very clever Apace nursery. They include native wisteria, olea, scaevola, Yanchep roses and various melaleucas and saltbush that are ideally suited to the difficult coastal conditions. We protect them with covers for their first year in the elements.

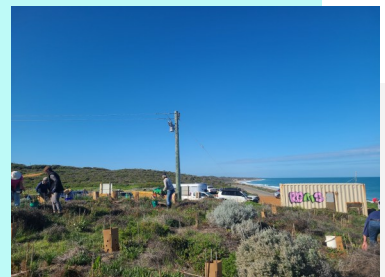

Rachel and Helen at Moore Catchment Council have been getting grants to do this work for at least ten years, while GCA has coordinated with our members and locals to provide the volunteer workforce. We are outcompeting the weeds which are mainly pelargonium, sea spinach and onion weed. The invasive pyp grass is also being tackled thanks to MCC grants.

The results are really excellent and it is great to see the new growth each year and the large areas that have now been rehabilitated.

The workers really appreciated the fish and chip lunch at the Country Club following our mornings work.

Many thanks to everyone who helped out.

Linda Johnson for GCA

COMMUNITY GARDEN

Winter rains and cold temperatures have seen the community garden get a bit of a workout these past few weeks. However the winter veggies are pushing through along with lots of weeds which has been keeping us busy! Here a few snapshots from our Community Garden thriving in the cooler months, thanks to the care of our wonderful volunteers.
